I was in a meeting with a retired Navy flag officer yesterday who let me know that he had seen a "hit list" compiled by someone on Weldon's staff, presumably at Weldon's direction, that identified people in the national security field who had made contributions to you. Those in the national security and defense fields also had their companies listed.

"You're on the list," he told me, and he knew how much I had contributed (so far).

He also noted that Weldon had remarked something to the effect, "If they don't think there will be retribution, before or after the election, they're kidding themselves!"

Interesting.

Just thought you'd like to know.

Cheers,

Subject: Fwd: Congressman Weldon

Thought I would pass on email below. We should follow Navy on this.

Hi--

I learned this morning that Congressman Weldon has his staff contacting everyone and his brother in OPNAV to get info on Joe Sestak. The Navy has legal privacy act concerns and their guidance is for all inquiries to go to RADM Ferguson, OLA.

I would like us to follow suit. We should not talk about Joe Sestak and, if they insist, forward their request for information to OLA.

Thanks--

Christine
